

Hai Phong, April 29, 2026

**INFORMATION DISCLOSURE ON THE WEB PORTAL OF
THE STATE SECURITIES COMMISSION AND THE HO CHI MINH CITY
STOCK EXCHANGE. HCM**

To: - State Securities Commission
 - Ho Chi Minh City Stock Exchange

Company: HAPACO GROUP JOINT STOCK COMPANY
Stock code: HAP
Head Office Address: 3rd Floor, Green Building, No. 7, Lot 28A, Le Hong Phong Street,
Gia Vien Ward, Hai Phong City.
Telephone: (84 225) 3556 002
Fax: (84 225) 3556 008
Information disclosure: Vu Xuan Thinh – Deputy General Director

Contents of information announcement:

Pursuant to the regulations on information disclosure, HAPACO Group Joint Stock Company would like to disclose information on its separate and consolidated financial statements for the first quarter of 2026.

This information will be published on the website of HAPACO Group Joint Stock Company:

www.hapaco.vn Shareholder Relations section on 29/04/2026.

We commit that the information published above is true and fully responsible before the law for the content of the information disclosed.

Persons authorized to disclose information

Vu Xuan Thinh

No: 46/2026/CV-HAP

"Re: Explanation of consolidated financial
statements in Quarter 1, 2026"

Hai Phong, April 29, 2026

Respectfully to: - State Security Commission of Vietnam
- Ho Chi Minh Stock Exchange

Pursuant to the Circular No. 96/2020/TT-BTC on November 16, 2020 of the Ministry of Finance guiding on the disclosure of information on the stock market, Hapaco Group Joint Stock Company would like to explain the following content:

1. Explanation of the shift in after-tax profit in the reporting period from a loss in the same period of the previous year to a profit in this period:

Details of difference in Profit after corporate income tax in Quarter 1, 2026 compared to Quarter 1, 2025: (Unit: VND)

Content	Quarter 1, 2026	Quarter 1, 2025	Difference	Rate of change
Profit after corporate income tax	4.060.048.601	-9.057.865.473	13.117.914.074	-145%

Cause:

- Changes in the scope of consolidation: In Q1/2025, GREEN International Hospital Joint Stock Company (GREEN International Hospital) remained a subsidiary of the Group. Therefore, the previous consolidated financial statements had to record significant expenses related to this entity, especially business management expenses and goodwill allocation expenses from the business consolidation.

The reduction of these recurring expenses directly reduced the total consolidated expenses, leading to a significant increase in the Group's after-tax profit in Q1/2026 compared to the same period in 2025.

2. Explaining that the profit after corporate income tax at the income statement of the disclosing period changes by 10% or more compared to the income statement of the same period last year.

Cause: The main reason for the increase in consolidated after-tax profit in Q1/2026 compared to Q1/2025 is the change in the structure of the Group's subsidiaries, specifically:

- The business operations of the subsidiaries are more efficient.

- Reduction in expenses in Q1/2026: GREEN International Hospital is no longer a subsidiary of the Group. Therefore, in the Q1/2026 accounting period, the report no longer includes the aforementioned expenses of this entity.

Above are explanations of Hapaco Group Joint Stock Company on the profit after corporate income tax of Hapaco Group.

Sincerely./.

Recipient:

- As above;
- Save in Archive, Finance and Accounting

HAPACO GROUP JOINT STOCK COMPANY
DEPUTY GENERAL DIRECTOR - IN CHARGE

I. NATURE OF BUSINESS OPERATIONS

1. Form of capital ownership

Hapaco Group Joint Stock Company was equitized from a State-owned enterprise in the form of: Transferring the entire value of the existing State capital at Hai Phong Paper Company and the existing State shares of Hai Phong Paper Company in Hai Au Joint Stock Company to Hapaco Joint Stock Company under Decision No.: 1912/QD/UB dated October 28, 1999 of People's Committee of Hai Phong City. Hapaco Group Joint Stock Company was renamed from Hapaco Joint Stock Company under Business Registration Certificate No. 0200371361 issued by Department of Planning and Investment of Hai Phong City for the 11th time on November 21, 2009. During its operation, the Company was granted Business Registration Certificate with the 15th change on August 11, 2025 by Department of Planning and Investment of Hai Phong City.

The shares of the Company have been listed on Ho Chi Minh City Stock Exchange. Stock code: HAP.

2. Business lines

The key business activities of the Company include:

- Production of pulp and paper of all kinds; printing of joss paper for import and export;
- Financial investment and securities trading;
- Hospital service business.

3. Normal operating cycle

The operating cycle of the Company is the period from the purchase of raw materials to enter the production process to the conversion into cash or assets that are easily convertible to cash, usually not exceeding 12 months.

4. Nature of business operations during the year affecting the Interim Consolidated Financial Statements

In accordance with the assessment by the Board of Management of the Company, during the year, there were no events or activities significantly affecting the Interim Consolidated Financial Statements.

5. Business structure

As of March 31, 2026, the Company has 5 subsidiaries and 1 associate, details as follows:

No.	Name of entities	Address	Main activities	Interest ratio	Voting right ratio
Subsidiaries:					
1.	Hai Phong Paper Joint Stock Company	No. 441A, Ton Duc Thang, An Hai Ward, Hai Phong	Paper production	99.91%	99.91%
2.	Hapaco Yen Son Company Limited	Nuoc Mat Hamlet, Au Lau Ward, Lao Cai Province	Paper production	100.00%	100.00%
3.	Hapaco Dong Bac Company Limited	Km 18, National Road 15A, Mai Ha Commune, Phu Tho Province	Paper production	100.00%	100.00%
4.	Hai Ha Joint Stock Company	Nam Quang Industrial Cluster, Vinh Tuy Commune, Tuyen Quang Province	Paper production	61.54%	61.54%
5.	Hai Phong Hapaco Paper Joint Stock Company (formerly Hapaco H.P.P Company Limited)	Tien Nong Residential Group, Hong An Ward, Hai Phong City	Paper production	99.89%	99.89%
Associate:					
1.	Green International Hospital Joint Stock Company	No. 738, Nguyen Van Linh, An Bien Ward, Hai Phong	Hospital service business	49.50%	49.50%

HAPACO GROUP JOINT STOCK COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN

for the fiscal period from January 01, 2026 to March 31, 2026

6. Employees

The total number of employees of the parent Company and its subsidiaries as March 31, 2026 was 859 people (859 people as at December 31, 2025).

7. Statement on comparability of information in the Interim Consolidated Financial Statements

The comparative information is presented based on data from the Consolidated Financial Statements for the fiscal year ended December 31, 2025 prepared by the Company and the interim Consolidated Financial Statements for the fiscal period from January 1, 2025 to March 31, 2025 which were prepared by the Company. However, some indicators are presented in accordance with the guidance in Circular 99/2025/TT-BTC dated October 27, 2025

II. FISCAL YEAR AND CURRENCY UNIT USED IN ACCOUNTING

1. Annual accounting period: Based on the calendar year, starting from January 01 and ending on December 31 of every year.

2. Currency unit used in accounting

The currency unit used in accounting is Vietnamese Dong (VND).

III. APPLIED ACCOUNTING STANDARDS AND REGIME

1. Applied accounting regime

The Company applies the Vietnamese Enterprise Accounting Regime issued together with Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 53/2016/TT-BTC dated March 26, 2016 and Circular No. 202/2014/TT-BTC of the Ministry of Finance issued on December 22, 2014 guiding the method of preparing and presenting the Consolidated Financial Statements.

The interim consolidated financial statements are prepared on the principles in accordance with Vietnamese Accounting Standards. The accompanying interim consolidated financial statements are not intended to present the interim consolidated financial position, the interim consolidated income statement and the interim consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2. Statement on compliance with Accounting Standards and Regime

The Board of Management ensures that the interim consolidated financial statements have been prepared and presented in compliance with the requirements of Vietnamese Accounting Standards, the applicable Vietnamese Enterprise Accounting System and the relevant guidance documents on the preparation and presentation of the consolidated financial statements.

IV. KEY ACCOUNTING POLICIES

1. Basis for consolidation of the Consolidated Financial Statements

Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date upon which the control commences until the date upon which the control ceases.

Non-controlling interest

Non-controlling interest is determined based on the ownership ratio of non-controlling shareholders in the net assets of the acquired entity at the date of acquisition.

The divestment by the Company in a subsidiary not resulting in a loss of control is recorded similarly to equity transactions. The difference between the value of change in ownership stake of Company and its subsidiaries in the net assets of subsidiaries and the proceeds or payments from the divestment by the subsidiaries is recorded in the retained earnings under owners' equity.

Loss of control

When the Company loses its control of a subsidiary, it derecognizes the assets and liabilities of such subsidiary, as well as the non-controlling interest and other components of owners' equity. The gain or loss resulting from this event is recognized in the consolidated income statement. After the divestment, the remaining interest in the former subsidiary (if any) is recognized at the remaining carrying amount of the investment in the separate financial statements, after having been adjusted proportionally for changes in owners' equity since the date of acquisition, if the Company and its subsidiaries still have significant influence in the investee, or is recorded at the historical cost of the remaining investment, if the influence is no longer significant.

HAPACO GROUP JOINT STOCK COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN

for the fiscal period from January 01, 2026 to March 31, 2026

Goodwill

Goodwill in the consolidated financial statements is the remaining difference between the cost of investment and the ownership stake of the investor in the fair value of identifiable net assets. Goodwill arising out of a business combination is initially recorded at the historical cost. After initial recognition, goodwill is measured at the historical cost less accumulated depreciation. Goodwill is amortized over its estimated useful life of 10 years.

Goodwill arising out of the acquisition of associates and jointly controlled establishments is included in the carrying amount of the associates and jointly controlled establishments. Goodwill arising out of the acquisition of subsidiaries is presented separately as another asset in the consolidated balance sheet.

When a subsidiary, associate or joint venture is sold, the remaining value of the unamortized goodwill is included in the gain / loss from the sale of the respective company.

Associates

Associates are entities in which the Company has significant influence, but not control, over their financial and operating policies. Associates are recognized using the equity method. The consolidated financial statements include the Company's share of the income and expenses of the associates, after adjustments to align the accounting policies with those of the Company, from the date upon which significant influence commences until the date upon which significant influence ceases. The carrying amount of investments recorded using the equity method is also adjusted for changes in the interest of the investor in the investee arising out of changes in the owners' equity of the investee that are not reflected in the income statement (such as revaluation of fixed assets, or exchange differences due to translation of financial statements, etc.).

When the share of losses of the investee that the Company and its subsidiaries are required to recognize exceeds their interest in the investee accounted for using the equity method, the carrying amount of the investment (including any long-term investments, if any) shall be reduced to zero, and the recognition of further losses shall cease unless the Company and its subsidiaries have an obligation to cover such losses or have made payments on behalf of the investee.

Transactions eliminated in consolidation

Transactions, balances within the Company and its subsidiaries and unrealized income and expenses from internal transactions are eliminated in preparing the consolidated financial statements. Unrealized profits and losses arising out of transactions with associates are deducted from investments within the scope of interests the Company and its subsidiaries in the associates.

2. Types of exchange rates applied in accounting

Actual exchange rate at the time of transaction: used to convert into accounting currency for transactions recorded increases in: revenue, other income, production and business expenses, other expenses, assets, owners' equity, receivables, capital in cash, prepayments to sellers, payables, prepayments from buyers.

In case of selling goods or providing services related to pre-received revenue or pre-received money from the buyer: Revenue and income corresponding to the pre-received amount are applied the actual transaction exchange rate at the time of pre-receipt from the buyer.

In case of purchasing assets related to transactions of prepayments to the seller: The value of assets corresponding to the prepaid amount applies the actual transaction exchange rate at the time of prepayment to the seller.

Mobile weighted average book exchange rate: used to convert to the accounting currency on the credit side of cash accounts when making payments in foreign currency.

Exchange rate used for end-of-period revaluation:

For foreign currency-based monetary items classified as assets: The exchange rate applied for revaluation is the foreign currency buying rate of the Bank where the Company opens a foreign currency account. For foreign currency deposits at banks, the actual exchange rate when revaluating is the buying rate of the bank where the Company opens a foreign currency account.

For foreign currency items classified as liabilities: The exchange rate applied for revaluation is the foreign currency selling rate of the Bank where the Company opens a foreign currency account.

HAPACO GROUP JOINT STOCK COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN

for the fiscal period from January 01, 2026 to March 31, 2026

3. Principles of recognizing cash and cash equivalents

Cash and cash equivalents include: cash, demand deposits and term deposits (not exceeding 3 months), cash in transit and short-term investments with a recovery period of not more than 3 months from the date of investment, which can be easily converted into a certain amount of cash and have no risk of conversion into cash at the time of reporting. The determination of cash equivalents is ensured in accordance with the provisions of Vietnamese Accounting Standard No. 24 "Cash Flow Statement".

4. Principles of accounting for financial investments

Held-to-maturity investments

Held-to-maturity investments are investments that the Company's and its subsidiaries' Board of Management intends and has the ability to hold until maturity. Held-to-maturity investments include term deposits at banks, bonds, and loans held to maturity. These investments are recognized at historical cost less provision for doubtful debts..

Investments in other entities

Investments in equity instruments of other entities are initially recorded at the historical cost, including purchase price and directly attributable purchase costs. After initial recognition, these investments are measured at the historical cost less provision for diminution in value of investments. Provision for diminution in value of investments is made when the investee incurs a loss. Provision for diminution in value of investments is reversed when the investee subsequently generates profits to offset the losses for which provisions were previously made. A provision is reversed only to the extent that the carrying amount of the investment does not exceed the carrying amount that would have been determined if no provision had been recognized.

5. Principles of accounting for receivables

Receivables are amounts that can be recovered from customers or other entities. Receivables are presented at the carrying amount less provisions for doubtful debts.

The classification of receivables as trade receivables and other receivables is carried out on the following principles:

- **Trade receivables:** Including receivables of a commercial nature arising out of purchase and sale transactions between the Company, its Subsidiaries and buyers who are not in the same group as the Company and its Subsidiaries.

- **Other receivables:** Including receivables of a non-commercial nature, not related to purchase and sale transactions (such as: receivables from loan interest; deposits; distributed dividends and profits; amounts paid on behalf of third parties who are entitled to receive back; amounts that the export consignee must collect on behalf of the consignor; receivables from lending assets; receivables from fines and compensation; shortage of assets awaiting resolution, ...).

Receivables are tracked in detail by original maturity, remaining maturity at the date of reporting, original currency and each entity. At the time of preparing the financial statements, receivables with a remaining collection period of no more than 12 months or one business cycle are classified as short-term receivables, while receivables with a remaining collection period of more than 12 months or more than one business cycle are recorded as long-term receivables.

Provisions for doubtful debts represent the value of receivables that the Company expects to be uncollectible at the end of the fiscal period. Increases or decreases in the balance of provision item are recorded in the general & administration expenses of the year. Provisions for doubtful debts are made for each receivable, based on the time of overdue principal payment in accordance with the initial commitment (excluding debt extension between the parties), or the expected level of loss that may occur.

Receivables satisfying the definition of foreign currency-based monetary items: Revalued as at March 31, 2026 at the actual transaction exchange rate at the end of the period (see also Note IV.2).

6. Principles of recognizing inventory

Inventories are stated at the lower value among historical cost and net realizable value.

The historical cost of inventories is measured as follows:

HAPACO GROUP JOINT STOCK COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN

for the fiscal period from January 01, 2026 to March 31, 2026

- **Raw materials and goods:** including costs of purchase and other directly attributable costs incurred in bringing the inventories to their current location and condition.
- **Finished products:** including costs of raw materials, direct labor and directly attributable general production costs allocated based on normal operating capacity.
- **Work in progress:** including costs of main raw materials.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to consume them.

Inventory valuation method: weighted average, specific identification method and using perpetual inventory method.

Provision for inventory devaluation is made by the Company in accordance with prevailing accounting regulations. Accordingly, the Company is allowed to make provision for devaluation of inventories due to obsolescence, damage, deterioration in quality, and in cases where the original cost of inventories exceeds their net realizable value as at the end of the financial period. Increases or decreases in the provision balance are recognized in cost of goods sold during the period.

7. Principles of accounting for tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible fixed assets is the total cost incurred by the Company to acquire the asset up to the time the asset is ready for use. The determination of the cost of tangible fixed assets for each case is applied in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets.

Expenses incurred after putting fixed assets into operation (upgrade, renovation, maintenance, repair costs, etc.) are recorded in production and business expenses in the period. In cases where it can be clearly demonstrated that these expenses have resulted in an increase in future economic benefits expected to be obtained from the use of tangible fixed assets beyond the originally assessed standard level of performance, these expenses are capitalized as an additional cost of tangible fixed assets.

When tangible fixed assets are sold or disposed of, their historical cost and accumulated depreciation are removed from the consolidated balance sheet. The difference between the proceeds from the disposal of the asset and the remaining value of the asset is recognized as profit or loss and presented in the consolidated income statement of the Company.

Tangible fixed assets are depreciated using the straight-line method over their estimated shelf life. The estimated shelf life is classified by asset group as follows:

<u>Group of fixed assets</u>	<u>Number of years</u>
Building & architectonic model	05 - 25 years
Equipment & machine	03 - 20 years
Transportation instrument	03 - 10 years
Instrument for management	03 - 07 years
Other fixed assets	02 - 09 years

8. Principles of accounting for intangible fixed assets

Intangible fixed assets are stated at cost less accumulated depreciation.

Land use rights

Land use rights include:

- Land use rights legally transferred; and
- Land use rights leased before the effective date of the Land Law (2003) for which the land rent has been paid for a lease term longer than 5 years and a Certificate of Land Use Rights has been issued by a competent authority.

The historical cost of land use rights includes all costs directly related to obtaining the land use rights. Land use rights with a term are depreciated using the straight-line method over the effective period of the land use rights certificate. Land use rights with an indefinite term are not subject to depreciation.

Computer software

The cost of purchasing new computer software that is not an integral part of the related hardware is accounted for as intangible fixed assets. Computer software is amortized on a straight-line basis in 8 years.

9. Principles of accounting for financially leased fixed assets

Leases is classified as a financial lease if most of the risks and benefits attached to the ownership of the asset remain with the lessee. Financially leased fixed assets are stated at historical cost less accumulated depreciation. The historical cost of financially leased fixed assets is the lower of the fair value of the leased assets at the inception of the lease and the present value of the minimum lease payments. The discount rate used to calculate the present value of the minimum lease payments is the interest rate implicit in the lease or the interest rate stated in the contract. In cases where it is not possible to determine the interest rate implicit in the lease, the loan interest rate at the inception of the lease is used.

The historical cost of financially leased fixed assets is recorded at the fair value of the leased assets/*or the present value of the minimum lease payment (in case the fair value is higher than the present value of the minimum lease payment)(*)* plus the initial direct costs incurred in connection with the financial lease activities. If input VAT is deductible, the present value of the minimum lease payments does not include the VAT amount payable to the lessor.

() Interest rate applied to calculate the present value of the minimum lease payment for the lease of the assets: Implicit interest rate / Interest rate stated in the lease contract / Lessee's marginal borrowing rate.*

Financially leased fixed assets are depreciated over the shelf life of the leased assets.

10. Principles of accounting for tax

a) Current corporate income tax

For normal business activities: Current income tax is the tax calculated based on taxable income and the corporate income tax rate in the current year (20%). Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses as well as adjustments for non-taxable income and losses carried forward.

For socialized health care activities: The preferential tax rate of 10% throughout the operation period is applied to the income of enterprises from socialized activities in the fields of education - training, vocational training, health, culture, sports and environment, and judicial appraisal.

b) Deferred corporate income tax

Deferred corporate income tax is the corporate income tax payable or recoverable due to temporary differences between the carrying amount of assets and liabilities for the purpose of preparing the consolidated financial statements and the tax base. Deferred corporate income tax liabilities are recognized for all taxable temporary differences. Deferred corporate income tax assets are recognized only when it is probable that future taxable profits will be available against which the deductible temporary differences can be utilized.

c) Other taxes

Other taxes are applied in accordance with the current tax laws in Vietnam.

The Company's tax reports are subject to inspection by the tax authorities. Since the application of tax laws and regulations to different types of transactions is susceptible to varying interpretations, the tax amounts reported in the financial statements could change upon final determination by the tax authorities.

11. Principles of accounting for prepaid expenses

Prepaid expenses record actual expenses that have been incurred but are related to the business performance of many accounting periods.

HAPACO GROUP JOINT STOCK COMPANY

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN

for the fiscal period from January 01, 2026 to March 31, 2026

Prepaid expenses mainly include the value of tools, equipment, repair costs, land rental fees, etc. and other expenses incurred during the Company's business operations and are considered to be able to bring future economic benefits to the Company. These expenses are allocated to the Consolidated Income Statement using the straight-line method, based on the Company's shelf life or estimated cost recovery period.

Tools and equipment

Tools and equipment include assets held by the Company for use in the normal course of business, with the historical cost of each asset being less than 30 million VND and therefore not eligible for recognition as fixed assets according to current regulations. The historical cost of tools and equipment is allocated on a straight-line basis over a period of 2 to 3 years.

Major repair costs

Factory repair costs are allocated to expenses on a straight-line basis over a period not exceeding 03 years.

Land rental

Land rental with term is allocated to expenses on a straight-line basis over a period equal to the land use period recorded on the Certificate of Land Use Rights.

12. Principles of accounting for liabilities

Liabilities are presented at historical cost. The classification of payables as trade payables and other payables is carried out according to the following principles:

- **Trade payables:** Including commercial payables arising from transactions of purchasing goods, services, and assets.
- **Other payables:** Including non-commercial payables, not related to transactions of purchasing, selling, and providing goods and services (such as: Payables for interest, dividends, and profits payable; financial investment operating expenses payable; amounts payable on behalf of the Company by third parties; payables for borrowed assets, fines and compensation payables, surplus assets pending resolution, payables for social insurance, health insurance, unemployment insurance, and trade union fees, etc.).

Payables are tracked in detail by original term, remaining term at the reporting date, by original currency, and by each entity. At the time of preparing the interim consolidated financial statements, payables with a remaining payment period of no more than 12 months or one business cycle are classified as short-term payables, payables with a remaining payment period of more than 12 months or more than one business cycle are recorded as long-term payables.

13. Principles of recognizing loans

Loans are tracked in detail by each subject, term, and currency. At the time of preparing the interim consolidated financial statements, loans due within 12 months or the next business cycle are classified as short-term loans, loans with a repayment period of more than 12 months or more than one business cycle are recorded as long-term loans.

Loans that meet the definition of foreign currency monetary items: Revalued at March 31, 2026 at the actual transaction exchange rate at the end of the period (see also Note IV.2).

14. Principles of recognizing borrowing costs

Borrowing costs include interest expenses and costs directly attributable to the loan (such as appraisal fees, audit fees, loan documentation preparation costs, etc.).

Borrowing costs are recorded as financial expenses in the period when incurred (except for cases of capitalization according to the provisions of Vietnamese Accounting Standard No. 16 "Borrowing costs").

15. Principles of recognizing payable expenses

Payable expenses include the value of expenses that have been included in the operating expenses of the period, but have not been actually paid at the end of the financial period on the basis of ensuring the principle of matching between revenue and expenses. Payable expenses are recorded based on reasonable estimates of the amount payable for goods and services used.

HAPACO GROUP JOINT STOCK COMPANY
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued) B09a-DN/HN
for the fiscal period from January 01, 2026 to March 31, 2026

Basis for determining types of payable expenses

- Payable for electricity, water, telephone, auditing fees: Based on the payment notice of the service providers or the economic contract signed with the suppliers.

16. Principles of recognizing equity

a) Ordinary shares

Ordinary shares are recognized at par value. Any amount received in excess of the par value from the issuance of shares is recorded in the share premium account. Directly attributable costs related to the issuance of ordinary shares, after deducting tax effects, are deducted from the share premium.

b) Repurchase and reissue of ordinary shares (treasury shares)

Treasury shares are recorded for the repurchase of odd shares arising when issuing shares to pay dividends, or issuing shares from equity capital according to the approved issuance plan, or repurchasing odd shares at the request of shareholders. Fractional shares are shares representing the equity capital formed by merging fractional shares divided proportionally to investors. In all other cases, when repurchasing shares that were previously recorded as equity, the par value of the repurchased shares must be deducted from the equity capital. The difference between the par value of the repurchased shares and the payment value including directly related costs, minus taxes, is recorded in the capital surplus.

c) Principles of recording undistributed profits

Undistributed profits reflect the business results (profit, loss) after corporate income tax and the situation of profit distribution or loss handling of the Company. Undistributed profits are monitored in detail according to the business results of each financial period (previous period, current period), and at the same time monitored in detail according to each profit distribution content (fund allocation, supplementing the Owner's Investment Capital, distributing dividends, profits to shareholders, to investors).

17. Principles and methods of recognizing revenue

Revenue from selling finished products

Revenue from selling finished products is recorded in the consolidated income statement when the significant risks and benefits of ownership of the goods have been transferred to buyers. Revenue is not recorded if there are significant uncertainties regarding the recovery of the consideration due or the possible return of goods. Revenue from selling finished products is recorded net amount after deducting sales discounts and rebates stated on the sale invoices.

Revenue from providing services

Revenue from providing services is recognised when the outcome of the transaction can be estimated reliably. When the outcome of the contract can be measured reliably, revenue is recognised by reference to the stage of completion of the work. Revenue is not recognised if there are significant uncertainties regarding the recovery of the receivables.

18. Principles of accounting for revenue deductions

Revenue deductions include: trade discounts. Revenue deductions arising in the same period of product, goods and service consumption are adjusted to reduce revenue of the period in which they arise.

In case products, goods and services have been consumed in previous periods, and revenue deductions arise in the following period, and this event occurs before the issuance of the Financial Statements: The Company records revenue reductions in the Financial Statements of the reporting period (previous period), according to the provisions of Vietnamese Accounting Standard No. 23 "Events arising after the end of the annual accounting period".

In case products, goods and services have been consumed in previous periods, and revenue deductions arise after the issuance of the Financial Statements of the following period: The Company records revenue reductions in the arising period (following period).

19. Principles and methods of recognizing income from financial activities

Interest income from deposits and loans

Interest income from deposits and loans is recognized on a time-proportioned basis based on the principal balance and the applicable interest rate.

for the fiscal period from January 01, 2026 to March 31, 2026

Interest from exchange rate differences

Income from exchange rate differences is recognized based on the difference in payment exchange rates and revaluation rates of foreign currency items.

20. Principles of accounting for cost of goods sold

Cost of goods sold is recorded according to the principle of matching with revenue.

To ensure the principle of prudence, costs exceeding the normal level of inventories are recorded immediately in the expenses of the period (after deducting compensation, if any), including: direct costs of raw materials consumed above the normal level, labor costs, fixed general production costs not allocated to the value of products in stock, inventory loss, etc.

21. Principles of accounting for financial expenses

Financial expenses include expenses or losses related to financial investment activities, borrowing expenses, and exchange rate losses. Interest expenses (including prepaid amounts) and exchange rate losses of the reporting period are fully recorded in the year.

22. Principles of accounting for selling costs and business management costs

Selling costs: Selling costs include actual costs incurred in the process of selling products, goods, and providing services, including salary costs for sales staff (salaries, allowances, etc.); social insurance, health insurance, union fees, unemployment insurance for sales staff; costs of raw materials, tools, depreciation of fixed assets for sales; product advertising costs, promotional costs, preservation, packaging, and transportation costs.

Business management costs: Business management costs include salary costs for employees in the business management department (salaries, wages, allowances, etc.); social insurance, health insurance, union fees, unemployment insurance for business management staff; costs of office materials, labor tools, depreciation of fixed assets used for business management; Land rent, business license tax; provision for bad debts; outsourced services (electricity, water, telephone, fax, etc.); other cash expenses (reception, customer conferences, etc.).

Selling costs and business management costs do not incur any reductions during the year.

23. Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company (after deducting the amount appropriated to the bonus and welfare fund and the operating fund of the Board of Directors and the Board of Supervisors for the reporting period) by the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, taking into account the effects of all potential ordinary shares, which comprise convertible bonds and share options.

24. Segment reporting

Segment reports are part of the consolidated financial statements. Segment reports provide information about products and services in different geographical areas called segment information.

A business segment is a separately identifiable part that is involved in the production or provision of products or services and has risks and economic returns that are different from those of other business segments.

A geographical segment is a separately identifiable segment that is engaged in producing or providing products or services within a particular economic environment and that is subject to risks and economic returns that are different from those of business segments in other economic environments.

The Board of Directors of the Company said that the Company operates in divisions according to business fields: Hospitals, paper production and other activities. Segment reports will be prepared according to business areas.

Segment reports are presented in Note No. VIII.3.

25. Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or in which the Company and its subsidiaries and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be related party.

In considering the relationship with related parties, attention is paid to the nature of the relationship rather than the legal form.

Total current corporate income tax expenses	3,589,758,121	886,546,544

HAPACO GROUP JOINT STOCK COMPANY**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)****B09a-DN/HN***For the fiscal period from January 01, 2026 to March 31, 2026*

The current corporate income tax payable is determined based on the taxable income of the current period. The Company's taxable income differs from the income reported in the income statement because taxable income excludes taxable income items or deductible expenses for tax purposes in different periods and also excludes non-taxable items or non-deductible expenses for tax purposes. The Company's current corporate income tax payable is calculated based on the tax rates enacted as of the end of the fiscal year.

9. Basic earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

The Company uses the following information to calculate basic earnings per share:

	This period balance	Previous period balance
Accounting profit after corporate income tax	4,060,048,601	(9,057,865,473)
Profit attributable to shareholders owning ordinary shares of the Company	4,144,854,525	(8,704,166,972)
Amount allocated to bonus and welfare fund during the period	-	-
Average ordinary shares outstanding during the period (*)	110,942,302	110,942,302
Basic earnings per share	37.36	(78.46)

(*) The average outstanding ordinary shares during the period are determined as follows:

	This period balance	Previous period balance
Average ordinary shares outstanding at the beginning of the period	110,942,302	110,942,302
Average number of additionally issued shares outstanding during the period	-	-
Minus: Average number of treasury shares repurchased during the period	-	-
Average ordinary shares outstanding during the period	110,942,302	110,942,302

VII. OTHER INFORMATION**1. Events occurring after the end of the fiscal period**

There were no events arising after the end of the fiscal period that had a material impact or could potentially have a material impact on the Company's operations and the Company's interim consolidated business performance in the periods after the end of the fiscal year.

2. Related party transactions

A party is considered a related party when it has the ability to control the other party or exert significant influence over the other party in financial and business decision-making. Related parties include enterprises such as the parent company, subsidiaries, and individuals who, directly or indirectly through one or more intermediaries, have control over the Company, are controlled by the Company, or are under common control with the Company. Related parties also include affiliated entities, individuals who directly or indirectly hold voting rights in the Company and have significant influence over the Company, key management personnel such as Deputy General Directors, Company officers, close family members of these individuals or affiliated entities, and companies associated with these individuals.

2.1 Transactions with key management personnel and related individuals

Key management personnel and related individuals include members of the Board of Directors, the Board of Management, the Board of Supervisors, the Chief Accountant, and their close family members.

HAPACO GROUP JOINT STOCK COMPANY**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)****B09a-DN/HN***For the fiscal period from January 01, 2026 to March 31, 2026*
